The first two steps are relatively straightforward. The third step involves identifying the specific components of the system that are most likely to cause problems. This can be done by reviewing the system's design and operation, as well as by conducting a detailed analysis of the system's performance.

As a result of legislation enacted into law, the State of New Jersey will be offering in-person early voting on a machine during a six day period. In addition to providing early voting, registered voters will continue to have the option of voting by mail or in-person at their polling place on Election Day. There will be 8 early voting sites throughout Morris County. New electronic poll books will be used to sign-in voters. Poll workers will be available to assist all voters in using these new devices. The early voting locations are listed below. Hours for early voting are Tuesday-Saturday, 10am to 8pm and Sunday 10am to 6pm. It doesn't matter where you live in Morris County - registered voters can go to any of the 8 sites and conveniently cast your ballot on a voting machine.
